

More time spent
~~SCRATCHING EARS~~
together.

DOUXO[®] 
with Phytosphingosine

Turn itch time into together
time with DOUXO[®] Calm.

WHAT ARE THE SIGNS MY DOG OR CAT MAY HAVE **SKIN ALLERGIES**?

Your dog or cat may do any of these excessively:

- Scratching
- Licking
- Chewing
- Rubbing
- Grooming (cats)

Common signs of allergy-related skin issues include:

- Red, inflamed skin
- Rash
- Bald spots
- Bad odor

STOP THAT ITCH.

Protecting your dog or cat from allergy triggers can be challenging. That's why it's important to have a topical solution to help relieve the symptoms of allergies such as itching and inflammation; and heal and restore the skin barrier.

RELIEVE ITCHING AND INFLAMMATION WITH DOUXO® CALM.

DOUXO® CALM

Topical solutions to help relieve itching and inflammation associated with allergic conditions.

DOUXO® Calm is soap-free and contains skin-nourishing nutrients to help manage itching and inflammation associated with allergies.

DOUXO® Calm Products:

- Help soothe sensitive and allergic skin in dogs and cats
- Help soothe irritations
- Moisturize

DOUXO® features a unique molecule called Phytosphingosine. It's a pro-ceramide to help rebuild the natural ceramides found in the skin barrier that are critical in helping keep skin healthy.

ALLEVIATING THE ITCH
AND INFLAMMATION CAN HELP
HEAL, RESTORE, AND PROTECT
THE SKIN BARRIER.

EASY-TO-USE APPLICATIONS

DOUXO® Calm products are available in four easy-to-use topical formulations to help your dog or cat defend against the itch and inflammation of skin allergies:

SHAMPOO

Cleanses and removes allergens from the fur and skin.

MOUSSE

Leave-on mousse for treatments between baths to help cleanse and soothe skin irritations.

ESPECIALLY GREAT FOR CATS!

MICRO-EMULSION SPRAY

Leave on spray between baths to help soothe the itch and irritation from allergies.

GEL SPRAY

Helps relieve itch and inflammation of hot spots, itchy feet and skin lesions that cover a smaller area of the body.

DID YOU KNOW THAT **DOGS AND CATS CAN HAVE ALLERGIES TOO?**

Some people are affected by allergies and experience itching or other symptoms that cause discomfort. Our dogs and cats can experience allergies too. And when they're feeling bad, your time together can be affected. Common allergy triggers for dogs and cats include:

- Fleas
- Mold
- Pollen
- Food

ALLERGIES ARE **MORE COMMON THAN YOU THINK.**

56% of dogs with skin problems are allergy related and 51% of cats with skin problems are allergy related.¹ Veterinarians indicate that flea allergy dermatitis or FAD is the most common allergic disease.² FAD is an allergic reaction that is triggered by the saliva of the flea when it bites. This reaction can lead to excessive scratching and biting, and possibly even hair loss or infection.

ALLERGIES ARE OUT THERE.

With DOUXO® Calm you can help provide your dog or cat with relief from the discomfort of itching and inflammation and get back to the moments that matter most.

Ask your veterinarian about how you can help heal, restore and protect the skin of your dog or cat with DOUXO® today!
