DOUXO<sup>®</sup>  
with Phytosphingosine

♥  
**Signs of Allergies**

- Rubbing face with paws and/or on furniture
- Licking or chewing feet and paw pads
- Itchy, red blisters or bumps on skin
- Frequent ear infections or inflammation
- Respiratory problems and/or wheezing

Our pets' allergies don't always look the same as humans'. If your dog or cat is experiencing any of these symptoms, contact your veterinarian to find a solution!
