DERMATOLOGICAL CONDITIONS ARE SOME OF THE TOP REASONS PATIENTS VISIT THE VETERINARIAN

- Reports estimate that dermatological issues are the #1 reason pet owners visit the veterinarian ^{1, 2}
- Not only do skin issues impact the pet, the frustration and discouragement of a suffering pet negatively impacts the human-animal bond ^{3, 4}

of clinics report seeing a dermatological patient in their practice every day ⁵

THE SKIN BARRIER IS A COMPLEX AND FRAGILE ECOSYSTEM

DOUXO® Calm

Help manage pruritus and inflammation associated with allergic conditions.

DOUXO® is the #1 topical brand used and recommended by veterinarians for dogs with atopic dermatitis.¹

INDICATIONS:

Skin allergies such as atopic dermatitis, contact dermatitis and flea allergy dermatitis. Non-infected hot spots, pruritus, erythema and sensitive skin.

KEY INGREDIENTS:

Phytosphingosine (PS)	found naturally in the stratum corneum and some skin ceramides. PS applied topically can help restore the skin barrier
Pseudofilaggrin*	glutamine-rich synthetic peptide (saccharomyces cerevisiae extract) that increases the ability of the skin to retain water
Avenanthramides*	a highly purified fraction of oatmeal extract (avena sativa kernel extract) that is rich in antioxidants and has anti-inflammatory properties
STIMU-TEX® AS*	a patented plant-based complex with spent grain wax, argan oil, and shea butter. It's soothing and has anti-inflammatory and antihistaminic properties (as shown through in vitro testing)
SK Influx® V*	combination of phytosphingosine, ceramides, cholesterol and free fatty acids to moisturize and help stimulate regeneration of the stratum corneum
Hinokitiol**	has antibacterial, anti-inflammatory and antifungal properties
Raspberry Seed Oil**	has anti-inflammatory properties and is rich in antioxidants

*In DOUXO® Calm Shampoo and Mousse **In DOUXO® Calm Micro-emulsion Spray and Gel

BENEFITS:

- Helps interrupt the vicious cycle of pruritus
- Helps provide relief from skin inflammation
- Helps restore the skin barrier
- Moisturizing

SUPPORTING STUDIES:

- Shampoo and Mousse protocol is clinically proven to help control pruritus in dogs.⁶
- Mousse helps reduce inflammation and helps restore the skin barrier in 5 days.⁷

PRODUCT FORMS:

- Shampoo
- Mousse
- Micro-emulsion Spray
- Gel

6. Bensignor E, Pin D, Bourdeau P. A multicentric randomized controlled single blinded study to evaluate the value of a new protocol with a shampoo and a foam to treat canine allergic dermatitis. Prart Méd Chir Anim Comp. 2013;48(2):49-55.
7. Pin D, Bekrich M, Fantini O, Noel G, Vidémont E. An emulsion restores the skin barrier by decreasing skin pH and inflammation in a canine experimental model. J Comp Pathol. 2014 Aug-Oct;151(2-3):244-54.

DOUXO® Chlorhexidine

Help manage skin infections that are responsive to chlorhexidine and climbazole.

DOUXO® is among the top topical brands used and recommended by US veterinarians for dogs and cats with dermatological infections/inflammatory.¹

INDICATIONS:

Bacterial and fungal skin infections

KEY INGREDIENTS:

Phytosphingosine (PS)	found naturally in the stratum corneum and some skin ceramides. PS applied topically can help restore the skin barrier
Chlorhexidine	an antiseptic that affects both Gram+ and Gram- bacteria, including Staphylococcus and E.coli. Also anti-fungal activity against yeasts, including Malassezia and Candida
Climbazole*	an antifungal agent

*Not an ingredient in Micro-emulsion spray

BENEFITS:

- Antiseptic cleansing of the skin
- Helps provide relief from itching and inflammation associated with skin infection
- Helps restore the skin barrier
- Soothing and moisturizing

SUPPORTING STUDY⁸:

Study conducted in France using EU formulation comparing efficacy of antibiotic plus DOUXO topical therapy vs. antibiotic therapy alone.

- Shampoo and Micro-emulsion spray protocol along with antibiotic treatment helps improve skin and coat health within 7 days vs. antibiotic treatment alone (as reported by pet owners).
- Weekly use of the micro-emulsion spray helps prevent relapse after the end of the antibiotic treatment compared to antibiotic treatment alone.

PRODUCT FORMS:

- Shampoo
- Micro-emulsion Spray
- Mousse
- Pads

8. Clinical efficacy of DOUXO® Chlorhexidine PS Shampoo + DOUXO® Chlorhexidine PS Micro-emulsion Spray protocol in controlling superficial pyoderma in dogs in combination with cefalexin compared with cefalexin alone.

DOUXO® Seborrhea

Help manage kerato seborrheic disorders.

DOUXO® is the #1 topical brand used and recommended by veterinarians for dogs and cats with seborrheic dermatological diseases.¹

INDICATIONS:

Seborrhea oleosa and sicca

KEY INGREDIENTS:

Phytosphingosine (PS)	found naturally in the stratum corneum and some skin ceramides. PS applied topically can help restore the skin barrier
Boswellia Gum Extract*	anti-inflammatory properties

*In DOUXO® Seborrhea Mousse and Micro-emulsion Spray

BENEFITS:

- Antiseptic cleansing of the skin
- Helps provide relief from itching and inflammation associated with skin infection
- Helps restore the skin barrier
- Soothing and moisturizing

SUPPORTING STUDIES:

- A clinical study showed that using DOUXO® Seborrhea Shampoo and Micro-emulsion Spray is an easier and equally effective alternative to shampoo-only therapies.⁹

PRODUCT FORMS:

- Micro-emulsion Spray
- Shampoo
- Mousse
- Spot-on

9. Bourdeau P. Method for evaluation of topical treatment in seborrheic dogs: application to a comparison of 3 protocols using new concepts Abstract presented at: NAVDF 2006, 21st Annual Conference of the North American Veterinary Dermatology Forum; Apr. 2006.

DOUXO[®] Micellar

A gentle, soothing cleanser for ears and skin folds.

INDICATIONS:

Cleans ear canals, eye contours, soiled and matted hair, skin folds and greasy skin associated with seborrheic conditions

KEY INGREDIENTS:

Phytosphingosine (PS)

found naturally in the stratum corneum and some skin ceramides. PS applied topically can help restore the skin barrier

BENEFITS:

- Gently cleanses, soothes and degreases
- Helps emulsify and rinse out oily, waxy debris
- Helps restore the skin barrier
- Moisturizing

PRODUCT FORMS:

- Micellar Solution
