

DOUXO[®]

Micellar Solution

for dogs and cats

DOUXO[®] Micellar Solution, a gentle, soothing cleanser for ears and other smaller areas of the skin that need cleansing.

DOUXO[®] Micellar Solution is a moisturizing, nonsteroidal, non-stinging cleansing solution.

The micellar technology in DOUXO[®] Micellar Solution gently lifts away dirt and debris without stripping, drying or irritating the skin.

DOUXO[®] Micellar Solution also contains phytosphingosine, a pro-ceramide to help rebuild the natural ceramides in your pet's skin that support a healthy skin barrier.

DIRECTIONS FOR USE:

Shake well before use. For ear cleaning, ask your veterinarian which of the two following protocols is best for your pet:

- 1) Moisten a cotton ball with solution and place in the entrance of the ear canal;
OR
- 2) Hold the ear flap upwards and fill the ear canal with solution.

Then gently massage the base of the ear for 60 seconds. Remove the cotton ball (if used) and allow the pet to shake its head. Gently wipe away visible debris and excess solution with a clean, dry cotton ball.

To clean other areas of the skin, moisten absorbent material with the solution and gently wipe the area to cleanse and remove visible debris. Repeat as often as necessary until clean.

BENEFITS OF DOUXO[®] MICELLAR SOLUTION:

- Gently cleans, soothes and degrades
- Helps emulsify and rinse out oily, waxy debris
- Helps restore the skin barrier
- Moisturizing
- Can help fight *Staphylococcus pseudintermedius* biofilm¹
